

### Subject Influence Map

### Overall Country Performance

Institutions cited by academics in at least one subject	<b>39</b>
Subjects featuring at least one institution from Kazakhstan	<b>1</b>
Institutions ranked in at least one subject	<b>21</b>
Institutions in published ranking for at least one subject	<b>1</b>

### Range Representation by Subject

The following tables display the number of institutions from Kazakhstan featured in each subject within each given range. Please note that different numbers of institutions are presented overall in different subjects - ranges shaded in grey do not exist for the subjects in question

## Top 5 Institutions by Subject

In the tables below the [number] in square brackets is the global rank of that institution for the given subject. Thorough checks are conducted for the ranked institutions in each subject but where fewer than five institutions for the country in question are present in a given subject ranking, we have included the runners up - these are presented in grey. In many cases, these institutions beyond the published ranking, owe their position to relatively low amounts of data (which is why the ranking itself are truncated) and whether or not the institution operates degree programs in that subject may not have been verified. Nonetheless it has been found useful in the context of a country report to present these additional data.

At the tail end of a table institutions can appear in disciplines they are not very active in due to very strong profiles in "neighbouring" subjects. Since the All Science Journal Classification (ASJC) system operates at a journal level an institution strong in Chemistry can appear in Chemical Engineering for example. Within ranked ranges the existence of qualifying programs is personally checked by a member of the QSIU team - but this is not always practical for the hundreds of entries falling outside the range. At time of writing the QSIU team have manually verified the operation of programs in over 15,000 subject institution intersections.

### Overall Project Statistics

The QS World University Rankings by Subject has become a vast task, each year involving more data screening and cleaning and higher volumes of survey and publication data. To provide some sense of the scale of the project, here are some of the key statistics.

Academic responses	<b>76,798</b>	Universities selected by academics in at least one subject	<b>4,226</b>	Total number of subjects	<b>42</b>
Employer responses	<b>44,226</b>	Institutions ranked in at least one subject	<b>2,691</b>	Total number of ranked entries	<b>9,200</b>
Total survey responses (academics and employers)	<b>121,024</b>	Countries with at least one institution ranked	<b>125</b>		
Research paper attributions counted	<b>28.5m</b>	Within published range in at least one subject	<b>945</b>		
Citation attributions counted	<b>113m</b>	Countries with at least one institution in published range	<b>62</b>		
Self-citations excluded	<b>25.4m</b>	Within top 200 in at least one subject	<b>774</b>		
Programs verified	<b>15,530</b>	Countries with at least one institution in top 200	<b>55</b>		
		Within top 100 in at least one subject	<b>551</b>		
		Countries with at least one institution in top 100	<b>49</b>		
		Within top 50 in at least one subject	<b>347</b>		
		Countries with at least one institution in top 100	<b>38</b>		

## Subject Rankings Masterclass - 8 June

EduData Summit - 8-10 June 2016  
LONDON
